## ESSENCE

**Pulsating Rhythm of the Universe / Heartbeat (as Pulse of Consciousness)**  
**perpetual activity of the universe, the dance of matter, space dancing with itself / living energy in motion that creates the shapes of our world**  
**Movement (as the dance of relative motion we are all engaged in - essence of Life) / Vibration manifesting as Movement**  
**Upsurging Motion, Dynamic Impulse (leading to Emergence) [see also IMIX, MULUK]**  
**Catalytic Animating Energy / pulsation toward new directions [see also IK']**

**Teyolia (soul state and animating principle) residing in the heart - gives shape to a person's sensibilities and thinking patterns [see also IK']**  
**that which manifest as Surging Motion of the Blood, directing actions & giving shape to thoughts)**

**Awakened Consciousness [see also MULUK]**  
**Spark of Creative Thought that brings all things into being**  
**Movement of Intelligence Within the Mind / Thought Process [see also IK']**  
**highest potential of the mind, individual & collective**

**Earth force (as Creative Spirit lying inherent in the Earth)**  
**Evolutionary Forward Movement / potential, ability & evolution of the human mind**

## Power of Intelligent Synchronization

access point to our alignment as human beings with Earth & cosmic forces / Universal Cosmic Mind and its connection with human thought  
*Fluid World Resonance [see also LAMAT, EB]*

## MANIFESTATION

vibration, oscillation / animation / movement as dynamic motion

resonance (congruent mutual response elicited in bodies of similar structure & frequency) [see also LAMAT, EB]

quantum or non-causal events / synchronization, the timing of movement (e.g. in music, dance, sport, navigation, ...) / right timing

synchronized movement of matter, microscopic or macroscopic, its rhythms & cycles [see also MULUK]

(e.g. movement of the sun, phases of the moon, cycling of electrons around a nucleus, planetary orbits, calendar cycles, ...) [see also MULUK]

mental evolution / new growth out of old ways of thinking / visionary ideas

genius / innovation, born of an inspired mind / intelligence, mental ability, mental brilliance [see also IK']

cerebral or conceptual thinking / theoretical thinking leading to practical applications

intense thought process, mental activity / stream of thought / articulated oratory speech (leading to action) [see also IK']

mental clarity vs confusion / problem solving and resolution / conclusions

stress, confusion, headache, mental overwhelm (and resulting need for mental clearing)

tracking of signs & clues [see also MULUK, OK, KIB]

synchronicity (simultaneous occurrence of non-causally linked events connected by impact & meaning)

*synergy (as collective expression of individual harmony, the combination of different parts into a unified pattern)*

ecology as relationship & interdependence between lifeforms and environment / environmental movement and related issues [see also KAWAK]

evolution of Gaia & humankind

globalization / global world issues / human rights

forward movement leading to paradigm shift & transition

progressive evolutionary understanding of life on Earth / **geology (as study of the processes of change undergone by solid Earth) and in particular plate tectonics**

progressive and at times radical & controversial views (leading to changes that may be resisted if tradition and conservative attitudes are threatened)

new paradigm vs unstable development

mediation & negotiation (as the harmonization of opposite directions or ideas)

shake-ups / destabilization / reform / boundary shift [see also IK']

seismic activity

## SHADOW

feeling overwhelmed by global issues

resistance to change & evolution

(not letting go of the outdated, not welcoming or embracing changes brought about by a new paradigm) [see also AK'BAL, BEN]

exclusive focus on the past & future (keeping one from experiencing the present moment)

non-identification with earthly existence & the people of Earth / disassociation [see also MEN]

feeling out of synch with the world around / *inattention to signs*

overinterpretation of signs, symbols, dreams & visions (leading to loss of meaning) / tendency to make every experience universally significant

trapping in unnecessary thought patterns [see also IK'] / jumping to conclusions

## ASSOCIATION
